--	---	---	--	---	---

A significantly larger yarding of cattle at Feilding saw close to 900 cattle on offer. There were some fairly mediocre cattle going under the hammer by way of both quality and condition however prices managed to remain up to recent levels. The strong kiwi dollar continues to make its presence felt with buyers appearing more cautious as the week's progress. The colder weather this week has also made farmers consider their purchases more thoroughly.

The bull market put on a good show today with a better line up than the beefy cattle for a change. R2yr Friesians were selling in a tight range making \$2.00-2.20/kg irrespective of weight.
